

Please read and initial each in agreement. In a two-parent household, both parents must initial.

As an integral part of the Granby Nature Preschool program, children will have daily explorations outside. This includes in the woods, meadows, ponds, streams and/or gardens, farms, and orchards, in all weather (except when it is extreme and unsafe).

A parent or designated childcare person will provide transportation and accompany the child on off campus excursions (approximately twice a month) and supervise them throughout the field trip. Excursions include visits to local farms and nature sites. Participation also means that parents/caregivers will refrain from socializing (including mobile phone use) and model behavior, while enjoying the experience at hand.

In the rare event that a parent/childcare designee cannot stay with the child, you must notify the school in writing, in advance. In cases where prior arrangements are made, parents/caregivers can drop off and pick up the child.

Children may be photographed for educational, informational, and advertising purposes. If you do not wish for your child to be photographed, please notify Granby Nature Preschool, in writing prior to the start of the program.

We have read, understand, and agree to follow the policies and procedures in the Granby Nature Preschool parent handbook.
